

6/15/2023

Dear Mateus,

Congratulations! We are delighted to offer you admission to the Graduate School at Princeton University. This offer of admission reflects our extremely high opinion of your past accomplishments and your future promise as a scholar. We believe that you will thrive in Princeton's intellectual environment and that your participation in the University community will encourage your professional growth, while also enriching and enlivening our graduate program.

Below you will find your admission offer details.

We hope you will accept our offer of admission and become a part of the community of scholars at Princeton.

Cordially yours,

Rodney D. Priestley,
Dean of the Graduate School

Admission Offer

Name: Mateus Bastos Neiva, Sr.
Department: Civil and Environmental Engineering
Student ID: 920433243

Academic Year: 2023-2024
Degree: Non-Degree
Program Length: 6 Months

Visiting Student Research Collaborator

Admitted as a Visiting Student Research Collaborator for the period of September 1, 2023 through February 29, 2024. As a non-degree student, you may arrive on campus up to three (3) University business days prior to your start date.

Enrollment and required student health plan fees of \$4,530 will be billed to you.

We understand you will provide your own financial resources to cover your living expenses.

Total Awards

Terms and Conditions

1. *Non-Princeton Awards.* Students receiving financial aid from a non-Princeton source must accept that award and forward a copy of their award letter to the Graduate School promptly. Full non-Princeton and University awards may not be held concurrently. Princeton reserves the right to adjust the monetary value of its award, if any, based on Graduate School policy, changed circumstances, and/or individual review.
2. *Tuition Rate.* The tuition rate for the 2023-2024 academic year is subject to approval by the Trustees in April.
3. *Immigration Status and Physical Presence.* Students must be in a status that allows for legal presence and student employment authorization in the United States as a condition of enrollment. Students are responsible for obtaining any and all required U.S. government approvals or authorizations (including the appropriate visa or resident alien status) to permit their entry into and lawful status within the United States for the activities taking place during their enrollment. VSRC status is available only for individuals who are physically present at Princeton; remote or virtual participation in the VSRC program is not permitted.
4. *Princeton Policies.* Students accept and agree to be subject to all Princeton University policies during the duration of their enrollment, including, but not limited to, the Princeton Intellectual Property Policy.
5. *Appropriate Use of Princeton Information.* Students accept and agree not to disclose or to use, directly or indirectly, any proprietary or confidential research, data, personal data, or other similar information of which they may become aware as a result of any activities in Princeton's facilities. For example, they will not disclose research proposals, results, or inventions of Princeton personnel before they have been published.
6. *Withdrawing or Rescinding an Offer of Admission.* The Graduate School reserves the right to withdraw or rescind an offer of admission under any of the following conditions:
 - (a) any part of your application contains misrepresentations;
 - (b) if you do not or will not hold the academic affiliations or credentials you presented as part of your application;
 - (c) if you are currently enrolled in a degree program, you show a significant drop in your academic performance between now and your start date for enrollment at Princeton University (as determined by our office);
 - (d) If you accept our offer of admission as well as the offer of admission of another college or university for the same period of enrollment;
 - (e) if you engage in behavior that brings into question your honesty, maturity, professional suitability; or
 - (f) if you engage in conduct that violates the law or Princeton University policy.
7. *Health and Safety Risks.* Students accepting admission acknowledge that Princeton laboratories and other academic and research spaces may contain hazardous substances and equipment and therefore are required to do the following:
 - (a) Take every precaution necessary to protect your health and safety and the health and safety of others. You will acquaint yourself with and conduct your activities in accordance with all safety rules and safe operating procedures. In addition, you will complete any required laboratory access and safety training required by Princeton's Office of Environmental Health and Safety.
 - (b) If you are not familiar with or do not know how to safely handle a substance or piece of equipment, you will seek assistance from qualified Princeton personnel.
 - (c) You recognize that you may be subjected to potential risks, illnesses, and injuries. You have made your own investigation of these risks, understand these risks and assume them knowingly and willingly.
8. *Export Control and Sanctions Regulations.* US laws and regulations control the export of specific information, technology, software, and services to foreign countries, as well as to foreign persons in the US. While Princeton research activities are generally exempt from export controls, students accept and understand that Princeton may review all activities involving export or sanctioned country transaction with a foreign person, entity, or country to ensure compliance with US export control regulations. Such activities may require an export license or other US government authorization. Students agree to cooperate with any such review and to comply with any recordkeeping, certification, license, security measure, or other action that may result from the review.
9. The terms and conditions are subject to change as a result of action by federal and/or state governments or the Administration of Princeton University.

Response: I accept Princeton's offer of admission

Please indicate which factors were most influential in your decision to attend Princeton University.
